

**L11 PROJECT NAME:** Water projects at the Victoria Island Primary School-  
Bore Hole Project and Toilet Renovations  
**LOCATION:** Victoria Island, Lagos

Rotary Club of: **Victoria Island East**

**Summary:** The Victoria Island Primary School is a public school complex that serves approximately 4000 students. The students and staff have no access to clean water or sanitary toilet facilities. These projects have potentially wide benefit since the complex also serves the adult education program in the evening.

**Project Budgets:**

Overhead tank and ground tank, scaffolding and fittings	\$1560
Water treatment plant and fitting items	\$2440
Reservoir tank base, block, and cement, granite, sank and planks	\$400
Borehole drilling and materials	\$1200
Manual operation machine system	\$360
Toilet facility renovation costs	\$4000
Workmanship and transportation	<u>\$1680</u>
<b>TOTAL PROJECT COST TO PROVIDE SAFE WATER AND SANITATION</b>	<b>\$ 11,640</b>
