

L12 PROJECT NAME: Construction of three water boreholes for Festac Community

LOCATION: Festac

Rotary Club of: Festac Town

Summary: Clean drinking water is a need for residents of the Festac community. Provision of these three boreholes will provide adequate drinking water supply, and also supply water for sanitation facilities in nearby market. It is hoped that incidents of typhoid fever and other water borne diseases will be diminished by construction of these facilities.

Project budget:

| | |
|--|----------------|
| Three boreholes and associated materials/labor | \$11,400 |
| Rotary Club of Festac Town will provide | \$2,000 |
| International Rotary Club Partner | <u>\$9,400</u> |
| Total cost of project to provide three boreholes | \$11,400 |
