

N5 PROJECT NAME: **Ilesa Mammography Center**

LOCATION: **Lagos Area**

Rotary Club of: **Ilesa.**

Summary: **The proposed project is complete a project consisting of completed building, brick and mortar, funded and constructed by the RC of Ilesa, by providing elements such as wiring, plumbing, essential office material, and miscellaneous medical supplies. The current status of the building and an already provided mammography machine is on hold pending assistance from partners willing and able to provide funding for an additional element, or all of the additional elements required to achieve a functional Mammography Center. The number of women that will be served at this facility is estimated at over 20,000.**

The oversight of the utilization of funding will be provided by the RC of Ilesa. The operation of the Center will be by the Inner Wheel Rotary Club of Ilesa and externally funded professional health care workers.
